BATTLE OF BUENA VISTA.—A French paper draws the following comparison between the battle of Buena Vista, under Gen. Taylor, and some of the most distinguished battles of the old world:

Some days ago we read, in Mons. Thiers' work, an account of the battle of Jena, and of the defiles of Kosen, which were both fought on the same day. We there saw the Prussian army, proud of its discipline and superior organization, marching up to the cannon's mouth with just the same precision and coolness as if it was on parade—these are the very words of the author. We there saw this proud army cut up and destroyed, without hopes of rallying, and annihilated in one day, by soldiers, the greatest part of whom were new recruits, whom Napoleon had brought hastily on from the Rhine in post carriages. On the other hand, subsequent to the above events, we saw the German students, and country people, drive back to the very gates of Paris, the proud and conquering legions of Napoleon. Thus, then, it is not discipline which makes an army powerful and mighty, it is moral impress, it is patriotism. An army which enters with spirit into the views of its leaders, and is animated with the desire of attaining the end they seek to attain, will necessarily be much more powerful and mighty than an army of automatons, possessed of no moral impulse, and animated with no feeling and sentiment of duty. General Taylor writes in the following words, after the battle of Buena Vista, a battle in which 5,000 volunteers put to flight 22,000 men, troops of the line, and in a perfect state of military organization. He uses the following words:—"What caused me to gain the victory, was the fact that each soldier made his country's quarrel his own quarrel; and though surrounded on all sides, never once thought of surrendering, or yielding up the field to the enemy." From the beginning of the world to our own time, the above truths have been confirmed by facts. Marathon, Thermopylæ, the wars of the Roman Republic, the war of the Independence of the United States, the wars of 1811 and 1816, the wars of the French Republic, Saragossa, and the battle of Courtray, where the citizens of Ghent defied the proud cavalry of France; the wars of the Bolivian republic against Spain, England and France; also our own revolutions of 1830—all these examples prove that armies of patriots are superior to armies of mercenaries, where rank and employment is sought for the sake of the position they give in society, and for the money which they yield.

For the defence of the country, we only require a militia well organized, who feel that the presence of an enemy on the soil of the country is a national disaster.

THE DAILY NEWS.

Newport:

SATURDAY FEBRUARY 26, 1848

BY O. F. JACKSON, 97-THAMES ST

☞Advertisers will please bear in mind that the circulation of the **DAILY NEWS** is more than **DOUBLE** that of the Daily Herald, and greater than the combined circulation of the **Daily and Weekly Herald.** As one proof of this fact, the list of Letters remaining in the **Post-Office** is advertised in the **NEWS, as BY LAW REQUIRED.**

The Death of Mr. Adams.—The Philadelphia North American of Thursday morning, contains a Telegraphic announcement of the death of the distinguished statesman, whose name stands at the head of this article. When he was first taken in the House, he was removed to the Speaker's room, in the Capitol, where he remained until death bore him away to the land of the departed to join the great men of another age and generation, with whom he has acted so conspicious a part in our country's history, in years gone by.

This event, although the distinguished statesman and patriot had reached a much greater age than usually falls to the lot of man, will excite feelings of universal regret throughout the nation, to whose service his long life has been devoted.

He had outlived, in a great measure, the bitterness of party feeling commonly entertained towards all prominent men, and was of course esteemed by all political opponents as well as friends.

We cannot at this time attempt his eulogy—indeed, it is unnecessary, for his honored career is known to all. Other men may have been more fortunate politicians, but there has never lived since the days of Washington, a more guileless statesman, or a purer and more devoted republican. He has been gathered to his fathers, full of years and full of honors, to take his place by the kindred spirits of his venerated sire and our country's fathers. Let the President son repose by the side of his President father, and long may a nation's gratitude mourn over their grave.

☞The Ball at the Atlantic House, last night, was not what its friends anticipated it would be, though we doubt not that many who were there had a very pleasant time. The ladies were dressed with much taste and neatness, and the gentlemen looked remarkably well. The music by Green's Band, of Providence, was unsurpassable. The dancing was still going on at 5 o'clock this morning. There were about 200 present: last year, at the Ocean House, we believe the number exceeded 300.

The manner of procedure at the supper table was novel, in the extreme, and it was as far from being satisfactory as it was novel. We have not time to say more this morning, but shall allude to this affair again on monday.

Of the looks of the tables we are unable to speak not having been blessed with a sight at them.

☞"How my head aches!" will be the exclamation to-day, of not a few of those who attended the Ball last night. Well you must take the bitter with the sweet. You had a tolerably good time last night, and the consequence is a general stupor of the whole system to-day. This is the way with the world—every pleasure has its pain, but the pain *follows* the pleasure,—if it *preceded* it, few, we opine, would be the number who would be willing to indulge very extensively in pleasures of any kind.

☞The great Ball which was to have been given in Washington, on Tuesday last, the 22d, was postponed until a future day, in consequence of the mortal illness of Mr. Adams.

Terrible Accident at Baltimore.—The Baltimore Patriot of Tuesday evening says:

The fine steamship "Isabel," was launched to-day from Mr. Dunkin's ship yard, on the Point. She went off the stocks in gallant style, about five minutes before the time designated—a portion of the ways at the bow having given way. A portion of the crowd, which was pressing into the yard to see the launch, were standing within reach of the falling timbers, and about fifty of them were more or less injured—some seriously. A colored man and boy were said to have been killed. The scene was frightful in the highest degree, and created great confusion and excitement.

[Correspondence of the News.]

New York, Feb. 23d, 1848.

Mr. Editor:—

As one meets the countless numbers who throng Broadway on a pleasant Sunday morning, he can hardly immagine where the Temples are to be found to contain such an immense population of church goers, forgetting that there are *forty two* Episcopal Churches and Chapels in this city, and houses for other denominations, in nearly like proportion. There are at present no very brilliant stars in the "ministerial horizon," and yet our Clergymen are far above mediocrity. Indeed, the minds of people are growing so rapidly enlightened on the ordinary themes that ministers preach from, and so fastidious are they to hear no one from the pulpit, whose diction is not embellished with the ornaments of rhetoric, and whose delivery is not modelled from the classical rules of the elocutionist, that few clergymen, except those of talent, and such as have received a truly liberal education, are at present occupying the pulpits of our prominent churches.

But to pass from the pulpit, to the stage.

There is a good attendance at present, at all of our theatres. At the Park, the horses continue to *draw* well, though I hear they *retire* from the boards in a few days, to make room for the drama once more.—The Broadway, under the "cheap and nasty" system, (as Bennet expresses it,) is making money for its truly liberal proprietor who is trying hard to make it hold the first rank, in the list of Dramatic Temples.—And then we have Banvard's Panorama, and the Learned Canary Birds, and any number of exhibitions of "Model Artists," in fact, all tastes can be gratified here in this "Metropolis of fun and fashion, religion and rascality." Bon jour. Arthur.

Naval.—The United States sloop of war Plymouth was taken into the dry dock at Gosport, on Saturday morning. The Plymouth is bound for the East India station (not the Pacific as was stated,) and will probably be the flag ship of Commodore Geisinger, who is on his way to the East Indies, via Panama.

☞The New Orleans Delta of the 15th promises to publish the correspondence between Gen. Worth and Scott, which led to the arrest of the former, and the suspension of the latter.

Another Deserter.—A Serjeant Hamilton, a supposed brother to one of General Scott's aids, has deserted from the army in Mexico. He wrote to his former captain, stating that he was at the head of 300 men, (deserters) and if he wished to see discipline, he had better follow him. He also said he would attack the train between Vera Cruz and Jalapa.

Pretty Keen.—The Albany Patriot says—"One of our Methodist clergymen last Sunday remarked, that if all the world believed that Christ's coming was to take place on the 23d of March, 1849, at three o'clock P. M. two thirds of them would delay all preparation for it till *half past two!*

The New Treaty.—It is stated that the new treaty contains a clause in favor of the Wilmot Proviso with *regard* to the territory proposed to be ceded to the United States.

☞Santa Anna had lately a narrow escape from General Lane, Jack Hays, and Major Polk, who on the route from the capitol to Orizaba, paid a visit to Tehuacan, where this redoubtable chief was.—They captured his staff, with the guidons and colors of his body-guard. The lancers however, like their master, took to the chapparal.

The New Loan.—We learn from Washington that the Secretary of War had received bids at par for the new loan, amounting to $6,000,000, from four bankers of Washington, and the eastern cities.

☞We refer our readers to the advertisement, in another column of Paul's Rose, Oris and Teaberry Tooth Paste. The Teaberry is one of the most agreeable and beneficial articles for the teeth which we have ever used, leaving a sweet and pleasant taste in the mouth, and giving to the teeth a whiteness and lustre superior to any other dentifrice which we know of.

☞The death of Major Webster is fully confirmed, as is also that of Col. Barclay.—The news of their deaths was brought with the despatches accompanying the treaty.—It is strange that Clay and Webster should have each lost a son by this war.

Thirtieth Congress—First Session.

Senate.—Feb. 24.—Mr. Douglass gave notice of a bill to establish a territorial government in Nebraska.

Mr. Allen called up the resolution to inquire of the President whether an armistice exists with Mexico, and if so by what authority.

Also a resolution inquiring of the judiciary committee whether the act punishing communication with the enemy in time of war needed amendments. Both carried.

The Wilmot proviso was discussed and laid on the table,

Mr. Davis announced the death of Mr. Adams, and delivered an eulogy.

Resolutions to attend the funeral were passed and the Senate adjourned.

House.—A solemn prayer was offered by Rev. Mr Slicer.

An eloquent eulogy followed from the Speaker.

Mr Hudson followed with a biographical sketch of Mr Adams, and moved that when the House adjoured it adjourn Saturday to attend the funeral.

Mr Holmes and Mr Vinton followed, greatly affected.

Mr McDowell delivered a beautiful tribute, and moved appropriate resolutions, which were adopted, and the House adjourned.

A Most Singular Occurrence.—Captain Martin Lund, a Dane by birth, left New Orleans about eighteen months ago loaded with merchandise for a Mexican port upon a speculation. He put into a hostile Mexican port, when his property was confiscated and his person put into close confinement. His friends, hearing no news direct from him, supposed that he was dead. A succession was opened in the proper court, his property sold, the succession closed and the proceeds paid over to the supposed widow. The wife, about six months ago, married a young lawyer, of that city. Three or four days since, to the wonder of every one, the long lost, but veritable Capt. Lund, arrived in this city *propria persona.* He finds quite an alteration in his affairs, both pecuniary and domestic.

Curious Disturbance.—A religious congregation in Maysville, Ky., was recently disturbed in its evening worship, by the smashing in of the windows of the church. Some attributed it to drunken rowdies and others to an earthquake. At length it was ascertained to have been caused by a flock of pigeons, that had been disturbed from their roosting place, and were flying full tilt towards the light.

Reading the Bible.—The venerable *John Quincy Adams* recently stated to a friend, that ever since he was thirty years old, he had been accustomed, among the first things, to read the Bible every morning. He has read seven different versions, in the German, French, Greek, and Latin languages, besides various English translations.

☞The tobacco in Missouri will be the finest for manufacturing purposes ever raised in the state.

Married.—Lately, by the Rev. Mr *Cloud* Mr. *William Moon,* to Miss *Mary Starr.*—A wit was of opinion, that by the union of a Moon to a Star something like a Sun might be produced.

☞A Premium of $100 is offered for the best essay "On the Educational System, of the Puritans as compared with that of the Jesuits," which shall be sent to the Rev. Theron Baldwin, No. 3 Pine street New York, before August 1, 1848, to be awarded by the Hon. Mr. Frelinghuysen and the Rev. Drs. Bacon and Carnes.

Texas Wool.—The Galveston News is of opinion that wool growing will eventually become an important and successful pursuit in Western Texas. Immense numbers of sheep are found on the haciendas on the upper San Antonia and Rio Grande.

Robbery of the "Stable at Bethlehem."—Foreign papers state that the large silver star sunk in the place supposed to have been the site of the manger where Christ was born, has been stolen.

☞The last speech on the ten regiment bill was by Gen Greene of Rhode Island. The General has been in Congress for two sessions without once speaking upon any of the questions of the day. His recent effort shows that it is more his retiring disposition than want of ability that has kept him silent. He is a worthy Representative of so gallant a State as "Little Rhody" undoubtedly.—*Cor N. Y. Tribune.*

☞The Philadelphia Times says that the large number of one hundred and thirty people of color were baptized in the Delaware, on the Jersey shore, on Sunday last.

Poor Fun.—A young man in New Bedford recently inhaled chloroform for the fun of the thing, and was seized with convulsions which lasted *sixteen* hours.

☞It is not often that we find amongst the Medical Faculty sufficient candor to accord any merit whatever to "Patent Medicines" as it conflicts with their interest so to do; but below we give an exception.

Opinion of a Regular Physician.

Exeter, Me. Sept.30, 1845.

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past and many bottles, to my knowlede have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. Boyden, Physician at Exeter Corner

None genuine, unless signed I. BUTTS on the wrapper.

[Etract of a letter from Dr. Williams of Vt.]

Gentleman—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time: likewise one case of scrofulous humor and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A. Boyden, Esq, of Cambridge, cured of the dyspepsia of a year standing, after trying a hundred remedies without the least effect.

☞One of the most important effects of the recent progress of Science is the alliance of Chemistry with Physiology. By which a new and unexpected light has been thrown upon the vital processes of animals. For this we are indebted chiefly to the German and French chemists.—We have now a clear understanding of the different action of aliments, poisons, and remedial agents, and the long derided theory of the blood being the portion of the system upon which the latter should act, is now a demonstrated truth.—The great object, therefore, is to ascertain what remedy will act most directly upon the constituents of the blood when in the act of combination. Experience, observation, and a cloud of witnesses, establish the fact that SAND'S SARSAPARILLA, is at the very head of this class. Cancer, scrofula, salt rheum, erysipelas, leprosy, ringworm, mercurial diseases, suppuration of the glands, swellings of the joints, and all the diseases of the muscles and tissues, together with general debility of the system, yield to this unfailing purifier of the blood—for the blood is the channel through which disease finds its way to the various organs of the body,

The Lady's Faith in Radway's Soap.

I know my face is Tan'd and Freckled,
With Pimples, and with Blotches speckled
Sunburn and other annoying Spots,
With Scurvy, Morphew and Salt Rheum,
Upon my cuticle assumes
To reign with full authority.—
But ah! my friends, I'll cure them soon,
With a soap of a superior quality.
Radway's Chinese Medicated—
Is the name of this precious Soap:
It really cures all herein stated—
Either Pimples, Blotches, Tan or Spots.
The lady fair she spoke the truth,
She found the Soap the friend of youth,
And beauty now assumes its place,
Upon the clear, transparent face,
All ye who have upon your skin,
Pimples or Blotches, Pustules or Tan,
On the neck, the nose, the face or hands,
Or if perchance upon your arms—
And would possess angelic charms,
Fear not to rest your faith and hope
In Radway's Medicated Soap.

A secret which baffles the ingenuity of all who have atempted to anylize its properties. *Radway's Chinese Medicated Soap.* The extraordinary effects of this delicious emolient is truly astonishing, for no sooner is Radway's Soap applied to the surface than tan, sunburn, pimples, blotches, tetter and other exerescences speedily disapear. It softens, soothes, heals and sweetens the skin, and imparts beauty to the complexion of all who use it. Sold for 2s. for large, and 1s. for small, at 2 Courtland st. N. Y. R. J. TAYLOR, Agent.

MADAME C. AMY.

☞This truly miraculous lady is still at the United States Hotel, displaying her mysterious and wonderful powers in developing human character, by the aid of improved modern science; bringing from oblivion the things of the past, and giving form and pressure to objects yet sleeping in the wide abyss of possibility.

☞Cold Feet are an evidence that the blood is encumbered with morbid humors, which not only render the circulation sluggish and unequal, but prevent a proper supply of the vital fluid to the extremities. Hence coldness of the hands and feet, accompanied with headache, giddiness, and many other unpleasant complaints.

Wright's Indian Vegetable Pills are one of the best preventives in the world against Cold Feet because they not only cleanse the blood from those impurities which are the cause, but they impart an energy to the circulation which carries it with vigor to every part of the system.

Beware of Sugar Coated Counterfeits.—Remember that the original and only genuine Indian Vegetable Pills have the written signature of William Wright on the top label of each box.

The genuine are for sale by C. G. C. HAZARD, No. 89 Thames-st., Sole Agent for Newport; and by Nathan Dennis, Portsmouth; Seabury & Almy, Tiverton Bridge; Arnold Smith, Tiverton Four Corners; H. F. Brown, Little Compton; W. A. Brown, Adamsville. Wholesale at the New England Office, 198, Tremont-st., Boston.

Caution.—The public are particularly cautioned against being imposed upon by persons that are selling preparations of Sarsaparilla which they pretend have the same qualities as *Browns Sarsaparilla and Tomato Bitters.* Since these Bitters have been offered to the public, there have been no less than four different imitations got up by as many different individuals, and sold for the genuine. The good qualities of Brown's Extract of Sarsaparilla and Tomatoes, or Sarsaparilla and Tomato Bitters, is already known and appreciated by physicians and the public—particularly by those who have used them for Impurities of the Blood, bad Humors, Scrofulous diseases, Billious affections, Costiveness, loss of appetite, &c. There has been no medicine sold that has given such general satisfaction. There cannot be the least doubt but this compound is the best alterative now in use. We have abundance of proof of that fact. There have been thousands of cases of impurities of the blood cured by this medicine. Some of them have been truly wonderful, where the patients have been given over as incurable. The above compound is not merely a common extract of Sarsaparilla, but a very strong extract of the best Spanish Sarsaparilla, extracted by an entirely new apparatus, made expressly for the proprietor, and used by no other person in this country. This apparatus ensures the whole medical qualities of this most valuable root.

SHOES, BOOTS AND GAITERS,

A very Extensive Supply.

IN Offering this stock of goods to the inhabitants of Newport and vicinity, I am aware that the satisfaction of making a good bargain is incomplete—it is not realized when the purchaser does not know that he is receiving for his money the very best return. To give, in this case full assurance, I will say, that whilst the above goods are too valuable to allow of being purchased at lower prices than other goods in market, I will notwithstanding, sell them at such prices as cannot fail to secure a continuance of that custom which I already have so largely and so liberally received.

Phalon's Chemical Hair Invigorator.

A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.

Naught with beauty can compare,
With soft, glossy locks of hair;
If not endowed with such by nature,
Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable portion of his time for twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious reserch and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel.

The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin causes a healthy action of the blood-vessels, nerves, &c., which fire the hair, thereby preventing baldness and gray hair,—entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair.

Hyer's Pills.

The American Improved Hygeian Vegetable Medicine.

☞—SAFE, CHEAP AND EFFECTIVE.—☜

This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aid to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful *trial* as a test of its curative properties.—During the last twenty years it has worked its way into extensive use, *wholly upon its own merits*, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measerably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (*for periods* varying from months to fifteen or sixteen years,) as their only medicine, and *knows it* to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere *assertions* in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It cleares the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing BALDNESS AND GREY HAIR.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the harshest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls.—When used on children's heads, it lays the foundation of a good head of hair.

THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six eight inch boilers, any two, or four of which, can be thrown into one, so as to admit of a large boiler; and it is provided with a set of rings so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it bakes evenly with a small quantity of fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL.

Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range to which they invite the attention of the public.

This Range may be set in the ordinary fire place and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and in being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they may at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.

Names and residences of persons residing in the city of New York, who have been cured or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:

Mr. Hiram Anents, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint,—cough, cold, &c.

Mr. L. W. Conklin, 162 Eldridge-st.
Mr. Alonzo Brown, 72 Reade-st.
Mrs. Morgan, 163 Front-st., Brooklyn.

Orange county, April 19th, 1846,

DR. EMANUEL,

Dear Sir:—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

Dr. Emanuel's Balsamic Lung and Cough Jelly, is sold by the Agent; R. J. TAYLOR.

Price fifty cents a bottle, or larger sizes one dollar. Dec. 11.

MOTHER'S RELIEF,

IT is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose;—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the MOTHER'S RELIEF before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all ferbrile and nervous affection. It smoothes and shields from irritation and by its peculiar properties it destroys the cause of hermorrhage or inflamation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilities the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may eb depended upon in all cases of threatning abortion where it is possible to be prevented in cases of Spasams, &c, causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invte all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, and also the opinions of many physicians of eminence, and of persons who have become acquainted with its benefical effects.

CAUTION TO PURCHASERS.—Ask for BARTHOLICK'S Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a fac similie of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to. DR. G. A. BARTHOLIC,
